CONTENTS

OPENING REMARKS
Robert M. Timm, Kathleen A. Fagerstone, and A. Charles Crabb ................................................................. 1

KEYNOTE ADDRESS
VPC: 50 Years of Progress?
Terrell P. Salmon ................................................................................................................................. 3

INVASIVE AND FERAL ANIMALS
Eastern Fox Squirrels and Western Gray Squirrels in Southern California
Alan Muchlinski, Brian Gatza, Suzanne Lewis, and Katya Erkebaeva ................................................................. 7
Abating Wild Pig Damage Using Trapping Best Management Practices
Billy Higginbotham ................................................................................................................................. 13
Progressing the Possum Pied Piper Project
Matt Kavermann, James Ross, Adrian Paterson, and Charles Eason ......................................................... 17
Rangitoto and Motutapu – A Starting Point for Future Vertebrate Pest Eradications on Inhabited Islands
Richard Griffiths, Fin Buchanan, Keith Broome, and Brett Butland ......................................................... 22
Turning back the Tide of American Mink Invasion in Partnership with Communities
Xavier Lambin, Ros Bryce, Elaine J. Fraser, Yolanda Melero, Matthew K. Oliver, and Hollie Walker ........ 28
Ecological Restoration of Sub-Antarctic Macquarie Island
Keith Springer ........................................................................................................................................ 34
Non-Target Species Management for the Macquarie Island Pest Eradication Project
Keith Springer and Noel Carmichael ......................................................................................................... 38
Pushing the Envelope in Paradise: A Novel Approach to Rat Eradication at Palmyra Atoll
Alexander Wegmann, Elizabeth Flint, Susan White, Mark Fox, Gregg Howald, Pete McClelland, Aurora Alifano, and Richard Griffiths ........................................... 48
Feral Cats in the Tall Forests of Far East Gippsland, Australia
Tony Buckmaster and Christopher R. Dickman ......................................................................................... 54
Getting Ready for the Next Step: The Eradication of Feral Cats on Large and Highest Priority Mexican Islands
J. M. Barredo-Barberena, A. A. Ortiz-Alcaraz, J. C. Hernández-Montoya, L. Luna-Mendoza, and A. Aguirre-Muñoz ..... 61
The Influence of Perceptions, Attitudes, and Experiences on the Perceived Risks and Benefits of Free-Roaming Cats
Dara Wald and Susan K. Jacobson ........................................................................................................... 67
The Effects of Feral Cats on Insular Wildlife: The Club-Med Syndrome
Steven C. Hess and Raymond M. Danner .................................................................................................... 76
Who Wants Feral Cats in the Hawaiian Islands and Why?
Cheryl A. Lohr and Christopher A. Lepczyk ............................................................................................... 83
Cat Fight! The TNR Wars
Robert H. Schmidt ....................................................................................................................................... 89
Outdoor Cats: An Animal Welfare and Protection Perspective
John Hadidian, Inga Gibson, Susan Hagood, Nancy Peterson, Bernie Unti, Betsy McFarland, Katie Lisnik, Heather Bialy, Inga Fricke, Kathleen Schatzmann, Jennifer Fearing, Pam Runquist, and Andrew Rowan ................................................................. 95
Finding Foxes in Tasmania: Faecal DNA Analysis Reveals Widespread Distribution of an Elusive Introduced Predator
Stephen Sarre, Anna J. MacDonald, Candida Barclay, and Dave Ramsey ................................................ 94

WILDLIFE & FOOD SAFETY
Methodological and Epidemiological Concerns when Comparing Microbial Food Safety Risks from Wildlife, Livestock, and Companion Animals
Edward R. Atwill, Michele Jay-Russell, Xunde Li, Eduardo Vivas, Christopher Kilonzo, and Robert Mandrell ................................................................. 100
Detection and Prevalence of Cryptosporidium spp. and Giardia spp. from Wild Rodents Adjacent to Produce Production Fields in California
Xunde Li, Edward R. Atwill, Eduardo Vivas, Tamara Vodovoz, Chengling Xiao, and Michele Jay-Russell .................................................................................................................. 104
BIRDS

The Effect of Experimental Removal of Single Breeding Pairs of Resident Canada Geese
Ryan P. Lynch and Gino J. D’Angelo .......................................................... 220

Using Bird Strike Information to Direct Effective Management Actions within Airport Environments
Todd J. Ptilik and Brian E. Washburn .......................................................... 225

Site Use of European Starlings Wintering in Central New Jersey
H. Jeffrey Homan, Anthony A. Slowik, Linda B. Penry, George M. Linz, and Wendy Anderson ....................... 230

Bird Management in Fruit Crops: How We Make Progress
Catherine A. Lindell, Stephanie A. Shwiff, and Philip H. Howard .............................................. 235

California Gull Predator Management and Reproductive Success of Endangered California Least Terns in the San Francisco Bay, California
David L. Riensche, Christopher L. Kitting, Tierra C. Groff, Sharon Dulava, and Douglas A. Bell ..................... 240

Are Turf-type Tall Fescue Cultivars Useful for Reducing Wildlife Hazards in Airport Environments?
Brian E. Washburn .................................................................................. 246

Bird Management Strategies: Contributions by the National Wildlife Research Center
Kathleen A. Fagerstone and George M. Linz ........................................................................... N/A

Eagle-Aircraft Collisions: An Increasing Problem in the Airport Environment
Brian E. Washburn, Michael E. Begier, and Sandra E. Wright ..................................................... N/A

DISEASE

Toxoplasma gondii Detection in Urban Hawai’i
Alisa A. Davis, Christopher A. Lepczyk, Susan E. Crow, and Clifford W. Morden ........................................ 251

Old World Hantavirus Infection in Rattus Species and Risk Management in Urban Neighborhoods of New Orleans, Louisiana
Ashley Freeman, Robert Cross, Claudia Riegel1, Bradley Waffa, Joyce Brown, Lina Moses, Andrew Bennett, Nell Bond, Mary Greene, Tom Voss, and Daniel Bausch ......................................................... 256

Dynamics of Rodent-Borne Zoonotic Diseases and Their Reservoir Hosts: Invasive Rattus in South Africa
Rolanda S. Julius, Armanda D. Bastos, Christian T. Chimimba, and Helene Brettschneider ......................... 261

Striped Skunk Relative Abundance in Flagstaff, Arizona: Implications for Rabies Spread and the Current TVR Program
Jesse M. Maestas, Tad C. Theime, Krista M. Hausig, and David L. Bergman .............................................. 267

Changes in Possum Den-Site Use Following Density Reduction: Implications for Conservation and Bovine Tuberculosis Control
Belinda I. Whyte, James G. Ross, and Helen M. Blackie ................................................................. 271

The Potential Westward Spread of Raccoon Rabies: Modeling the Impacts
Aaron Anderson, K. Kirkpatrick, K. VerCauteren, J. Maki, S. S. Shwiff, R. Chipman, D. Slate, and S. A. Shwiff ........................................................................................................... N/A

Prevalence of Lymphocytic Choriomeningitis Virus in House Mouse (Mus musculus) in New Orleans, Louisiana
A. Freeman, R. W. Cross, J. Iberg, H. Zachary, N. Bond, F. Bauder, A. Bennett, T. G. Voss, C. Riegel, and D. Bausch .... N/A

STRATEGIES

Integrating Ecology and Technology to Create Innovative Pest Control Devices
Helen Blackie, Duncan MacMorran, Elaine Murphy, Des Smith, and Charles Eason ..................................... 274

White-tailed Deer Damage Management in a Forested High-Density Residential Community
Gino J. D’Angelo, Willard L. Wenner, and Marian S. Keegan ................................................................. 277

Deer, Humans, and Vegetation: A Case Study of Deer Management in the Chicago Metropolitan Area
Rachael E. Urbanek and Clayton K. Nielsen ...................................................................................... 282

Wildlife Damage Management at the County Level: Fresno County, California
Fred Rinder ......................................................................................................................... 289

PestSmart: An Information Toolkit for Practical Pest Animal Control
Steven Lapidge, Karyn Lapidge, and Suzy Balogh .............................................................................. 291

Strategic Vertebrate Pest Management Training
Tony Buckmaster and Mike Braysher ............................................................................................... 296

Principles Underpinning Best Practice Management of the Damage Due to Pests in Australia
Mike Braysher, Tony Buckmaster, Glen Saunders, and Charles J. Krebs ............................................ 300

Wildlife Services 2011 Research Needs Assessment
Mark E. Tobin, Stephanie A. Shwiff, John E. McConnell, and Gary A. Littauer ........................................ 308
STRAATEGIES (continued)

Changes in Wildlife Damage Management in Alabama: 1990 to 2011
James B. Armstrong ................................................................. 315

Tactical to Practical: The Human Component of Human-Wildlife Conflict Resolution
George R. Gallagher and Susan Logsdon-Conradsen ................................................................. 317

Regulated Commercial Harvest to Manage Overabundant White-tailed Deer: An Idea to Consider?
(Abstract)

The Balanced Scientist Program - Training PhD Candidates Beyond Research
Stephen Sarre, Tony Buckmaster, and Wendy Dimond ................................................................. NA

Outreach Education and Training in Vertebrate Pest Control
Peter D. Newman ........................................................................ NA

TOOLS AND TECHNIQUES

The Use of an Electronic Control Device in Wildlife Management: A Case Series
Larry L. Lewis, Donald Dawes, and Philip Mooney ................................................................. 324

Evaluation of a Pressurized Exhaust Device to Control Pocket Gophers and Belding’s Ground Squirrels in Alfalfa
Steve B. Orloff ........................................................................ 329

Preliminary Assessment of the HogHopper™ for Excluding Non-Target Wildlife
Tyler A. Campbell, Michael J. Bodenchuk, John D. Eisemann, Steven J. Lapidge, Linton Staples, and Phil Morrow ...... 333

Deer-activated Bio-acoustic Frightening Device Deters White-tailed Deer (Abstract)
Aaron M. Hildreth, Scott E. Hygnstrom, and Kurt C. VerCauteren ........................................... 337

Effects of Turf Rolling and Soil Aeration on Rodent Populations (Poster)
Gary Wimter and David Borrowman ........................................................................ 338

Raptor Perches as Vertebrate Pest Control
Elizabeth Slate ......................................................................... NA

Operational Evolution in Pest Eradication through Use of Self-Resetting Traps
Stuart Barr, Robert Greig, and Craig Bond ................................................................. NA

OTHER TOPICS

Activity Patterns of the Coyote (Canis latrans) Along an Urban-Rural Gradient
Holly E. Jantz, James B. Armstrong, Wendy Arjo, and Micah J. Moore ........................................ 341

Management and Conservation of San Joaquin Kit Foxes in Urban Environments
Brian L. Cypher and Christine L. Van Horn Job ........................................................................ 347

The Net Benefits of Controlling Bird and Rodent Pests in Wine Grape and Avocado Production
Aaron Anderson, Katy Kirkpatrick, and Stephanie A. Shwiff ................................................. 353

Effects of Vertebrate Herbivory on Clematis morefieldii, a Federally Endangered Plant (Poster)
Kyle Paris and Robert Boyd ........................................................................ 357

Wildlife Browse Damage: Estimating Biological and Economic Thresholds for Silvopasture Establishment
Micah J. Moore ......................................................................... NA

The Global Future of Vertebrate Pest Management
Steven Lapidge ......................................................................... NA

CLOSING REMARKS
John M. O’Brien ........................................................................ 361

INDEX OF AUTHORS ........................................................................ 363

INDEX OF KEY WORDS / SUBJECTS ........................................................................ 365

* Paper was accepted by the Vertebrate Pest Council for publication, although it was not presented at the Conference.
NA - Paper was presented at the Conference, but it was not available for publication in this Proceedings.
